Joseph E. Monroe

87 State Route 200 Harford Mills, NY
(607) 242-5135
josephemonroe1996@gmail.com

Objective:

To work in a team oriented and creative company. Hoping to bring great service and results to the company and the customer. Software engineer or quality assurance tester position desired. Eager to learn, work and provide great results.

Education:

Rochester Institute of Technology, Henrietta NY
Bachelor of Science, New Media Interactive Development major: Expected June 2020
Tompkins Cortland Community College, Dryden NY
Associate of Science, New Media major

Projects:

TCC Capstone class project – "Night Terror"
A solo project where I built a prototype game with 4 levels from the ground up using Unreal Engine 4. Conception, story, map design, audio, and visuals were newly learned while being created. I had never used UE4 before so everything had to be learned on the fly, but the final project came out pretty well! Here's a link to the video: https://vimeo.com/167159553

IGME 101 project – Classic Pong!
A solo project where I coded the classic game "Pong" from the ground up using p5 processing. It wasn't exactly perfect, but it was modeled after the classic. The game itself ran well, with minimal errors and needed few changes.

Work Experience:

Delivery Driver, D.P. Dough, Henrietta NY, March 2018 – September 2018
Deliver product to customers with great service, managing in store duties while not helping customers.
Deli Associate, Walmart, Cortland NY, May 2017 – August 2017
Provide great customer service while serving product and managing tasked duties.
